AHMED ADIL

Mobile Application Developer

Jeddah, Saudi Arabia | +966560623138 | ahmedadilabogarin@gmail.com | LinkedIn | Portfolio

Mobile Application Developer with hands-on experience building Android (Kotlin, Jetpack Compose) and cross-platform (Flutter/Dart) apps, integrating RESTful APIs, JSON, and Firebase backend services. Strong grounding in OOP and MVVM/Clean Architecture, complemented by UX/UI design experience and hands-on work with location-based features (Google Maps API) — directly aligned with location-driven, visitor-engagement products.

PROFESSIONAL EXPERIENCE

Mobile App Developer Intern — Park My Ride, LLC *Aug 2026 – Present | Remote*

- Develop and maintain Android application features, focusing on performance, responsiveness, and reliability.
- Implement UI/UX designs and integrate external RESTful APIs and web services into production features.

Junior Android Developer — New Age (Contract) *Feb 2026 – Jul 2026 | Remote*

- Fixed bugs and shipped new features across the app, improving stability and user experience.
- Collaborated with a distributed dev team using Git for version control and code review; built CI/CD pipelines to automate builds and releases.

UI/UX Designer Intern — StartHub (Part-time, concurrent) *Jan 2026 – Jul 2026 | Remote*

- Created wireframes, prototypes, and visual designs for cross-functional product teams — hands-on grounding in UX/UI best practices applied directly in app development.

Independent Android Developer *Aug 2024 – Dec 2024*

- Designed, built, and published multiple Android apps on Google Play using Kotlin, Jetpack Compose, and MVVM; integrated Firebase, REST APIs, and local databases.

Additional Experience:

- UI/UX Designer Intern, Future Interns (Nov–Dec 2025) — Figma prototypes, mobile-first UX.
- Android Developer Intern, CheapTrip (Dec 2024–Mar 2025) — built an AI-driven app using the Gemini API.
- Android Developer Intern, InternIntelligence (Mar–Apr 2025) — Android apps with Kotlin/Java, REST APIs, Firebase.
- Arabic Language QA Specialist, Exotel (May–Sep 2025) — audited service calls for clarity and compliance.

TECHNICAL SKILLS

Languages & Frameworks: Kotlin, Java, Dart/Flutter, Jetpack Compose, XML, JUnit

Concepts: Object-Oriented Programming (OOP), MVVM, Clean Architecture, Multi-Modular

APIs & Integration: RESTful APIs, JSON, Google Maps API, Firebase, Retrofit, Dagger/Hilt, Coroutines

Tools: Git/GitHub, CI/CD, Room, SQLite

PROJECTS

Zaka (ذكاء) — AI-Powered Quiz Generator (Android) | Link

- Android app that turns PDFs/images into personalized multiple-choice quizzes using AI, with progress tracking.

PetPal — Smart Pet Care management (Android) | Link

- A Pet Care Organizer app is designed to help pet owners manage the various aspects of caring for their pets, from feeding schedules to health check-ups, activities, and more.

Cineseek — Movies Finder | Link

- TMDB-powered app with dynamic UI using Retrofit and Compose where you can dive into the world of movies, save your favorites, Uncover cast details, behind-the-scenes stories, and everything you love, all in one place.

Favorite Places — Flutter, Location-Based App

- Cross-platform (Flutter/Dart) app to capture a photo, pick a location on a map, and save it locally, using the Google Maps API — direct hands-on experience with location-based mobile features.

Also built on Android: EliExpress (e-commerce, Stripe), Instagram clone, Task Manager — links on portfolio.

Also built with Flutter: Recipes app (multi-screen, categories, side drawer, settings), Expense Tracker (data visualization), Chat app (Firebase push notifications), Quiz app.

EDUCATION

B.Sc. Computer Science (Online) — Birla Institute of Technology and Science, Pilani | Expected 2029

CERTIFICATES & LANGUAGES

Certificates: Meta Android Developer Professional Certificate (Coursera); Learn Flutter & Dart to Build iOS & Android Apps (Udemy); CS50x (Harvard/edX)

Languages: Arabic (Native), English (C1 — EF SET Certificate, 2025)
